GAME RULES

Here is a list of rules for this game

1. Use the role of a die to determine how many spaces to move.
2. Which color you lands on determines which card pile you must draw from. If you land on a green square you must pick up and answer a question from a green card. If you answer correctly you can stay on that square. If not, you must return to the previous square you were on. Black square don't require you to answer any questions.
3. Landing on a square with a ladder can be good. If you want to use the ladder to move, you can choose to pick a ladder card. It will tell you if you can move down or up. If there is no up option than you must move back 5 squares if you draw the up card.
4. Enjoy the game and have fun!
