

WALL·E

MOVIE

1 In the future all nature and plant life has died. All the people left earth and live in spaceships. It is so dirty and ugly on earth. Nothing can live there except robots.

2 There is a special robot named Wall-e who lives on earth. His job is to clean the city and throw away trash. He is alone on earth and lives with a small bug. He has no friends.

3 One day a spaceship comes and a robot named Eve meets Wall-e. She is looking for plant life. Wall-e thinks Eve is very beautiful and he wants to meet her. She does not like Wall-e at first, but later finds that he is very nice and kind.

4 Eve finds plant life and must return to the spaceship with people and other robots. Wall-e goes with her. The spaceship is run by a bad robot named Auto. Can Wall-e save the people and Eve?

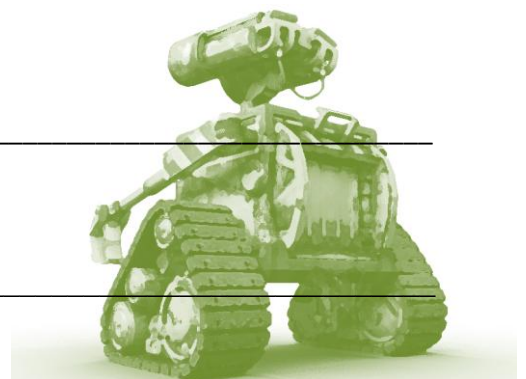

1.) How are robots good?

2.) How are robots bad?

3.) Do you like robots?

4.) How can we clean the earth and stop pollution?

5.) Why must we protect plants and nature?
