

Draw and Write

In the spring, flowers begin to come alive. Flowers are beautiful plants that blossom and smell nice in warm weather.

What kind of flowers do you like? Would you like to plant a garden? How many different plants would you have in your garden? You would have to water them every day to help them grow.

Draw and color a picture of a flower or garden. You can have many different flowers, with different colors, shapes, and sizes.

FLOWER

Write 10 sentences using the vocabulary words.
