

## Draw and Write

Monkeys are wild animals that live in the jungle. They look a bit like people and can walk on two legs. They have tails and are good at climbing.

Would you like to see a monkey? Where can you see one? Are they scary or kind? Would you like to have one as a pet? What kind of food do you think monkeys like to eat?

Draw and color a picture of a monkey. It can be in the jungle or in a zoo. Show the monkey climbing or eating.
